WHAT CUSTOMERS ARE SAYING

“Dominion Revenue Solutions took over our in-house billing and immediately improved our billing output and revenue. Within three months DRS had decreased our receivables by over 20%. In addition, they were able to capture unbilled revenue because of missing codes and recovered revenue from previously denied claims. Financially speaking DRS cleaned up our agency. They are proactive, diligent and consistent in their service. They truly live by their values of Precision, Integrity and Reliability. I am pleased to recommend Dominion Revenue Solutions to you highly and without reservation.” *Stella I, MD*
